

## Will My Installation Costs be Covered ?

Installation costs ARE COVERED for:

- HVAC (Heating, Ventilation and Air Conditioning) systems
- Biomass Stoves
- Water Heaters (including solar)
- Solar Panels
- Geothermal Heat Pumps
- Wind Energy Systems
- Fuel Cells

The tax credit for HVAC, biomass stoves, and non-solar water heaters is 30% of the total cost (product + installation) up to \$1,500. The law specifies installation costs include: *"expenditures for labor costs properly allocable to the onsite preparation, assembly, or original installation of the property."*

The tax credit for solar water heaters, solar panels, geothermal heat pumps, wind energy systems, and fuel cells\* is 30% of the total cost (product + installation), **with no upper limit**. The law specifies installation costs include: *"labor costs properly allocable to the onsite preparation, assembly, or original installation of the property and for piping or wiring to interconnect such property to the home."*

**Installation costs are NOT covered by the tax credit for:**

- Windows
- Doors
- Insulation
- Roofs

The tax credit for windows, doors, insulation and roofs is for 30% of the cost of materials only, up to \$1,500.
